M'AGT'NL'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

BY ATLANTIC CABLE.

LONDON, July 21.—In the House of Lords, last night, the Irish Church bill as returned from the House of Commons, was taken up.

Earl Granville complimented the House of Lords for the ability and statesmanship developed in the late debate, and the moderation shown by opposition to the Government. He thought some of their amendments were good, some bad, and nothing quite inadmissable. He did not consider that the House of Commons dealt superciliously or contemptuously, for out of sixty amendments only thirteen had been absolutely rejected. He criticised the amendments, believing their effects was to re endow what the bill intended to disendow, or had concurrent endowment, which the Government was obliged to consider is a breach of faith with their constituents, while an overwhelming majority of the House of Commons and public opinion were opposed to it. With respect to the disposal of surplus funds, the more he saw and heard, the more he was convinced that it was disadvantageous to keep the question open. He deprecated the proposal to keep three millions dangling before the people to excite agitation, and urged the Lords not to adhere to the amendments proposed by the reinsertion of words struck out from the preamble of the original bill.

Lord Carins complained in strong terms that the Government had not adhered to Earl Granville and pledged that the Lords' amendments would be respectfully considered, for on faith of this promise many who objected to this bill on its own merits, were induced to vote for its second reading. Gladstone had used language unworthy of himself and position. The speaker concluded that the amendments which had been rejected except two, had been disposed of without the slightest consideration. He hoped the House would insist on its amendments in respect to reservation of the surplus fund, and further disposition of estates and commutation of life interests.

Earl Kimberly said the Government could not give way.

Earl Gray thought the words in the original preamble offensive to the religious majority in Ireland, and urged the Government to concur in amendments.

Lords Halifax, Clanricande and Shaftsbury supported the Government, and the debate was continued to a late hour by Earl Russell, Marquis of Salisbury and Duke of Argyle, who urged resistance to the demands of the Government. The House finally divided on Earl Granville's motion to restore the preamble with the following result: for the motion 95; against it, 178. Earl Granville moved an adjournment that he might consult his colleagues, which was carried.

Shortly after the decision against the Government in the House of Lords, Gladstone entered the House of Commons, whose appearence was a signal for a remarkable out break of enthusiasm, and cheer after cheer came from the liberal side, and the business of the session was entirely suspended.

The press to-day are occupied with the subject of the vote in the House of Lords. The *Times* is satisfied the bill may be passed this session if the principal minds on both sides divest themselves of passions and prejudices by which they are influenced. The imminent peril is that the heat of party may be carried into the Cabinet and hasty resolutions taken. Should there be no action until another session, the Lords have rushed upon the certain consequences of defying the National will. The division of last night has revealed the spirit in which the bill has been opposed from the first.

The *Telegraph* thinks the Lords have virtually settled the the bill for the session. A new bill will be presented more stringent in form and must be accepted. If anything was needed to damage the Irish church and arouse the country to passionate resistance, the reckless debate of yesterday has furnished it.

The *News* considers the country in the midst of a constitutional crisis. The Lords, giving full swing to their recklessness have rushed into collision with the Government, the House of Commons and the country. The duties and responsibilities of the situation should be weighed by the Ministry with the calmness and confidence of men sure of ultimate and speedy victory. The bill, when presented at the Autumn session, will become a law with great speed. The Lords will not need the threat of the creation of new Peers to lead them to consent to more stringent measures. The country must decide whether an irresponsible debating society is to be allowed to interpose between it and its deliberate purposes and convictions, constitutionally expressed.

In the House of Commons to-night there was a full attendance of members. A petition praying for the rejection of the amendments to the Irish Church bill was presented and received with loud cheers.

Milbank, Member of North Riding, Yorkshire, inquired if it was competent for this house to demand an apology from the House of Peers for language used by their Lordships, insolent to the Premier and insulting to the dignity of the Commons.

The Speaker declared that the question was neither a point of order or privilege. This house was not cognizant of what passed in the House of Lords, and he decided that the question could not be entertained.

There is a rumor that Gladstone will withdraw the Irish Church bill, and as soon as the supplies are voted prorogue Parliament in order to introduce the bill at the Autumn session, under circumstances which will cause the Lords to hesitate before rejecting it.

The *Star* compliments Grant's steady refusal to recognize the Cubans. This course it says prevents the Spanish Government from accusing the United States of unfriendly feelings toward her, however much she may be aggrieved by expeditions from the United States.

The ship *Lord Sidmouth* was abandoned at sea. The crew were rescued and taken to Glasgow.

In the House of Commons, last evening, the Lord Mayor of Dublin in full robes presented a petition praying the House to support the endeavors now making to secure religious equality in Ireland. Charles Wentworth, member from Chelsea, presented a petition signed by 200,000 women asking for the franchise.

In the House of Commons, last evening, William Johnson, member from Belfast, complained of the conduct of the police in the recent anniversaries. He said there had been a rigid enforcement of the party procession act, while it had been systematically violated in South Ireland. Chester Fortesque, Chief Secretary for Ireland, praised the forbearance and order of the people on that occasion. Through the precautions taken by the Government, he hoped obeyance of the 14th of July would soon discontinue.

Meetings in favor of the disestablishment of the Irish Church continue to be held in various parts of the country.

In the case of Bishop Colenzo, of Natal, the Privy Council decided that he has full right to the Cathedral at Pietremaritsburg, and is already free from entrance by the Cape Town authorities.

NEW YORK, July 22.—The *Herald* special says that the London Cabinet Council this afternoon was unusually protracted, and did not break up till a late hour. A definite decision as to the future course of the Ministry was not arrived until to-morrow, when a meeting will be held. The latest rumor afloat is that Government will make one last offer for compromise before it resorts to extreme measures by the withdrawal of the bill. Lords Clarendon, Granville and others, are said to have made earnest appeals for moderation, urging the extreme danger of giving the reins to the voluntary sentiment of the mass. Notwithstanding the hesitation of the Ministry, the conflict between the Peers and people is inevitable. The crisis will be delayed only from knowledge of the momentous character of the undertaking. Rumor says the disruption of the Cabinet may ensue.

LONDON, July 22.—The *Times* says the Ministry has resolved to preserve the Irish Church bill in spite of a majority against it in the House of Lords. The conclusion is that the differences between the Houses in respect to the preamble and sixth clause do not offer insuperable obstacles to its passage.

The Harvard crew are at Putney. They declined the challenge of the London Club.

Another dreadful colliery explosion occurred yesterday at Athens, a small place a few miles east of Liverpool. Over thirty persons were killed outright and sixty injured. The whole section of country is in mourning.

The *Times* says the recent agrarian outrages in Ireland show that centuries of misrule have planted perverse views in the Irish peasant's breast, which must disappear under beneficent and enlightened legislation. For this reason we trust in such measures of justice as the Irish Church bill, which should not be left unsettled a moment longer than can be avoided. Until it is settled there is little hope of tranquility for Ireland. The gravest results are to be apprehended from temporary postponement; heavy indeed is the responsibility of those who have the power to rescue the measure from delay.

LONDON, (midnight) July 22.—The *Herald's* special says: The die is cast, the struggle begun, the Lords and the country have finally come to an issue in consequence of the abrupt termination of the debate last night. Intense excitement prevailed among political circles during the day. The Cabinet has been sitting all the afternoon. A report is afloat that great dissensions exist in the Cabinet. Gladstone, Bright, Low and the strongest members insist on the immediate withdrawal of the Irish Church bill, on the ground of the obstinate resistance of the Peers to its principles, which renders a direct conflict between the two houses of Parliament inevitable. Some members of the Cabinet, Lord Clarendon among the number, advocate more moderate proceedings, such as letting the bill take its course, only abandoning it at the last moment. The insulting language used by Salisbury toward Gladstone, joined to the large majority cast against the preamble, however, shows that all attempt to effect a compromise is useless. There is little doubt that Gladstone will carry his point of withdrawing the bill immediately. This will be followed by a speedy adjournment and calling another session in August, creating a large batch of new Peers, sufficient in number to overpower the present Tory majority.

Placards have been posted on the walls to-day headed, "Shall the people or the Lords rule," and calling a mass meeting at Crandall Hall for to-morrow. This will be followed by a monster open air demonstration.

Rumors are afloat that the Duke of Cambridge has openly expressed indignation at the radicalism shown by the Ministry. He hopes the Queen will refuse to sanction coercion of the Peers. The present crisis promises well to open the hall for sweeping reforms in England, commencing with the virtual destruction of hereditary legislation.

MADRID, July 22.—There is much excitement throughout Spain. There have been many arrests here and at Valladolid, Barcelona and Cordova, of parties believed to be fomenting insurrection, several Generals and Colonels of the army among them. The Government authorities are taking great precautions to prevent an outbreak. The decree of ex-Minister Herrera, has been withdrawn. The French Government has ordered all Spanish conspirators away from the frontier. A sharp fight occurred yesterday at Cudad Real between the civic authorities and a band of insurgents, presumed to be in the interest of Don Carlos. Nine of the former were wounded. The leader escaped.

MADRID, July 22.—The entry of Don Carlos into the Province of Navarre, is confirmed. Great precautions are being taken by the Government.

BRUSSELS, July 22.—J. Russell Jones, new Minister to Belgium, arrived yesterday.

PARIS, July 22.—The deputies left in the Corps Legislatif, intend to issue a manifesto calling on France to sit in judgment over recent events. The Thiers party have resolved to persist in keeping before the Chamber the idea and principles of their proposed interpolation. The Corps Legislatif meets July 26th at Paris. The official newspaper of to-day says that Victor Dwiney and Adolphe Vintry have been appointed Senators.

Ottawa Rufinstein, the defaulting clerk in the Receiver General's Department, escaped from jail last night. He is reported to have left for the United States.

ST. PETERSBURG, July 21.—Kottzer, the newly appointed Minister from Russia to the United States, leaves Saturday for Washington.

VARIETIES.

The most remarkable organ in the world is the organ of speech in woman: it is an organ without stops.

If a leaden bullet hits a man, what striking metamorphosis takes place? The leaden bullet becomes felt.

Polite smoker, at side of railway car: "Allow me to assist you to alight." Severe old lady—"Thank you, *I do not smoke!*"

A little girl attending Sunday School for the first time, was asked who went into the lion's den. "Oh, I know," she said, "It was Dan Rice."

"Is your house a warm one, landlord?" asked a gentleman in search of a house. "It ought to be," was the reply; "the painter gave it two coats recently."

A sentimental chap intends to petition Congress for a grant to improve the channels of affection, so that henceforth the course of true love may run smooth.

A witness being interrogated as to his knowledge of the defendant in the case, said he knew him intimately—"he had supped with him, sailed with him, and horse-whipped him!"

An Irish lad complained the other day of the harsh treatment he had received from his father. "He treats me," said he mournfully, "as if I was his son by another father and mother."

The latest undergraduate joke of Yale College was the transfer, at midnight, of a florist's sign—"New Haven Nursery"—to a conspicious position on a flourishing young ladies' seminary.

A gentleman of Rochester saw an advertisement that a cure for dyspepsia might be had by sending a postage stamp to the advertiser. He sent his stamp, and the answer was, "Dig in your garden and let whisky alone."

It is not an uncommon complaint against a newspaper that it hasn't life enough. But a brother editor repels this odd objection made to his paper by a gossiping old lady: "I like your paper very much: I have only one objection to it—*it hasn't deaths enough.*"

A Paris letter says a fast actress visited the Charenton mad house, a few days ago. She asked one of the patients, "What brought you here?" He replied, "An infernal woman like you!" She exclaimed, "Why, really, that man is not so mad as people pretend he is!"

An incredible story is told in the New York papers. A beautiful young woman entered a car, and a working man, whose countenance bore evidence of a day of toil, politely offered her a seat. "Please keep your seat, sir," was the response

WEEKLY REVIEW.

PORTLAND, July 23, 1869.

Gold in New York on the 21st quoted at 125 ¼.

Legal tenders are 74@75c.

There is no particular change in the condition of the money market. The receipts of coin from the interior have been scarcely so large during the past week as during the three or four preceding weeks. There is in circulation barely sufficient for ordinary trade requirements. The demand to San Francisco continues, and it is likely that as very little will be received from the interior till the end of the harvesting and threshing season, money will be very scarce by the last of August.

The comparatively stringent condition of the money market and depression of trade, common to all the Pacific coast, are accounted for in a nut-shell by the following paragraph from the Sacramento *Union's* commercial letter of the 15th. The case as stated applies with double force to Oregon. "If it be admitted that the business affairs of communities are governed by the same laws that control those of individuals, it will be very easy to understand that when a community spends more than it earns, or produces, it must run in debt for the excess, and when it gives employment to the factories of foreign countries, in making up its raw materials, to be sent back as manufactured goods, it must pay for such services. The people of California owe their present unsatisfactory financial condition, in a great measure, to buying more goods abroad than they are able to pay for, and employing others to do what they should do for themselves. This is very clearly demonstrated by the statistics of the trade of this port during the past six months."

Liverpool wheat market has gradually declined during the week to 10s 4d.

New York—Flour, nominal at $5 50@5 50. Wheat, dull at $1 85@1 73.

San Francisco—Flour—There is a good demand for local trade; Oregon brands of extra flour quoted at $5@5 75. Wheat—$1 70@1 80 for fair to choice; ordinary milling, $1 62½@1 55; the extreme rate of choice shipping is $1 70. Oats—California, $1 55@1 70; Oregon, $1 70@1 80.

From the newspaper reports of the 15th we obtain the following in regard to the San Francisco market:

In general markets, business has been exceedingly dull. Importers, jobbers, auctioneers and retailers all join in the chorus of "dull times," and declare that it is almost impossible to collect sufficient money to meet the necessary expenses of trade. The bonded warehouses and importers' stores are crammed full of every description of goods, and the arrivals of cargoes of merchandise from abroad continue very numerous. What is to be the end of this accumulation of goods, with a decreasing supply of money, is not easy to say; but the present condition of business cannot continue much longer without causing loss somewhere.

Oregon salmon is firm at $5@5 50 in hlf bbls; smoked salmon is offered at 7@8c ₱ lb.

Sugars are weak, with the probability of a decline in refined grades. The condition of the Eastern markets is favorable to heavy shipments here. The price at New York for refined is 15½c currency, with freight round the Horn at half a cent ₱ lb, also in currency, leaves a good margin at 14½c gold here, being furnished an outlet for the Eastern market which is overstocked. The Eastern refined, here, has been reduced to 14½c. Heavy shipments are on the way. During the week the *Sarah and Maria* brought 14,320 bags from Manilla and the *D. C. Murray* 3,000 packages from Honolulu.

The produce market has considerably improved during the week. The confirmation of the reports of short supplies of the early crops in England, France, Germany and Russia, and the steadily upward tendency of the Liverpool markets, is at last beginning to affect prices here, which are decidedly upward. Private advices from New York to the 8th instant inform us that the crops in most of the Western States have been seriously injured by heavy rains and frosts. Agents of English firms are purchasing wheat and flour extensively in New York, Chicago, St. Louis, Milwaukee and other Western markets, and the export of grain to Liverpool has not been as active for years as it is at pr. t, everything so many vessels as to interfere with the export trade to this coast to such an extent as to cause a rise in freight.

Portland—No changes in quotations. There is a little more activity in flour. We are sending steadily increased quantities to Puget Sound and British Columbia, while, for middle and low grades, there is a fair demand at San Francisco for the China trade. Hams are very scarce, indeed; lard, ditto; retailers are charging advanced prices.

The merchandise market has manifested less activity than for the past few preceding weeks, in consequence of the crowd which is now claiming the undivided attention of everybody in the interior.

Retail trade, for the same reason, is exceedingly dull, being confined entirely to the limits of city custom.

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price. If you want to insure your life examine the workings of the Company before you invest. If you examine you will

INSURE IN THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distribution.

BECAUSE we have NO STOCK HOLDERS to draw from 12 to 25 per cent on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually.

Because the NEW ENGLAND is a Mutual and not a Home Company in all our broad and beautiful country, an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Say amount Policy is ...	$1,000 00
Deduct two annual payments he has not paid, $26 50 each, and interest ...	54 62
The family would receive ...	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL.

Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased.

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings. But call and satisfy yourselves. We will be pleased at all time to communicate every information.

THE New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents.

A SENSIBLE LETTER.—We give place to the following letter from Tong Duck Chung, a Chinese merchant of this city. It will be seen that he has more sense and better ideas of industrial economy than all the cross-roads politicians of a dozen States, who are assuming to discuss the "Chinese question."

EDITOR OREGONIAN:

George Francis Train is, right—450,000,000 at your back door. Some want to come to Oregon—must come—will come. Don't want to infringe on any of your laws, only want equality before the law; come here to work and help make this country grow rich. All we want is peace and to be let alone.

I show you what good Chinamen are to Oregon. I make to day to Mr. Hoyt Deputy Collector of Customs, the last payment of $25,447 57, coin, for duties on Chinese goods imported by our House last summer in French ship *Jeanne Alice* from Hongkong. This does not include the duties paid by other China merchants in same ship.

White man been salee all the time. Every nation that trades with China gets rich. One ship here now—more coming, and there is going to be a direct trade between Portland and China if it takes a Chinaman to start it. I suppose white man got any sense he must see that plenty Chinamen in this country makes business for ships, steamboats, drays, etc., puts money in the public treasury, and by reasonable wages for labor, puts it within the power of the people of this State to start manufactories, mills, etc., and in many ways helps to make this country grow rich and prosperous.

TONG DUCK CHUNG,
Chinese Merchant.

WALLAMET UNIVERSITY.—From a letter to the *Advocate*, we learn that at the Trustees' meeting, held on Wednesday, Rev. J. L. Parrish was elected President of the Board, and L. S. Dyar, Secretary. Mr. Parrish, on his election, took occasion to give the Board an interesting piece of the history of the Institution which we have never seen published. It was in substance, that in the early history of the enterprise five individuals stepped forward at a critical moment, financially, and gave their notes of one thousand dollars each to save the building and lands for school purposes. These four persons were Rev. D. Leslie, Dr. Wilson, Alanson Beers and Rev. J. L. Parrish. The latter alone survives.

At this annual session of the Board of Trustees, the following persons were duly elected to fill the various departments of instruction for the ensuing year: President, Rev. N. Ronuda, D. D.; Professor of Mathematics, Rev. O. R. Frambes, A. M.; Professor of Natural Sciences, Rev. L. J. Powell, A. M.; Teacher in the Female Department, Miss Ellen Chamberlain; Music Teacher, Miss Berry. Miss Laura Reddy was at a previous meeting of the Board elected Preceptress, and is expected to be present and take charge of that department at the opening of the next session.

The degree of Master of Arts was conferred upon Henry A. Gilfrey, John M. Garrison, James R. N. Sellwood, Joseph A. Sellwood and Wm. T. Wythe.

James Chambers, J. A. Stratton, Rev. C. C. Stratton and Miss R. Kelly received the degree of Bachelor of Arts.

REGATTA OF PORTLAND YACHT CLUB.—The first boat will start promptly at 4 o'clock P. M. from the Commodore's boat, which will be anchored opposite the foot of Kamhill street, and the others will follow in quick succession, in the following order; *Elsie* starts first carrying colors of blue with Red Diamond; *Turtle*, second, scarlet with gold star; *Nettie*, third, red with white initial letter; *Minnie*, fourth, red and white; *Fleetwing*, fifth, blue and white colors. Other boats will probably take part in the race which have not yet entered, as the time for entering has been extended until 12 o'clock M.,—when all boats must be entered with the proper papers in the hands of the Commodore. The fleet will sail down the river past the city front, and round a buoy which will be stationed off the Boom-yard, turning from east to west, and thence up the river and round a buoy in like manner, which will be placed at the foot of Ross' Island, and thence down the river across the weather bow of the Commodore's boat to the place of starting. A gun will be fired on the starting of the first boat, and all small crafts not engaged in the race are requested to keep clear and out of the course of the club so as not to impede the sailing or progress of any of the yachts.

A NEW LOOM.—As our State is considerably interested in the production of textile fabrics, the following account of a new loom which has been invented in New York, and which promises to be one of the greatest things of the age, may not be out of place here. The *Economist* is sure the invention will work a complete revolution: "This new machine has been in operation for some time, and its success is fully achieved. It is called a "Positive Working Loom," by which the universal 'picking stick' is dispensed with, and the shuttle carried through the warps with a continuous motion. They have been run by steam power, and they turn out the finest fabrics of silk beautifully woven only by hand. The width of any and all fabrics may be extended indefinitely, a girl being capable of weaving cloth eight yards wide with ease. A leading manufacturer has offered $200,000 for the patent, but without effect, and its value is considered far beyond that amount, reaching up into the millions. Some forty or fifty of these looms are already in use at various places, and they will soon supercede all others."

RELIGIOUS INTELLIGENCE.—We clip the subjoined items from the *Advocate*:

The First Baptist Church of this city is being favored with indications of a revival. The congregations are increasing and the lectures and prayer meetings are growing in interest.

After many disappointments, the missionary effort on Sunday afternoon at Portland M. E. Church gives promise of permanent good. Seven Chinamen are in attendance, and show a remarkable aptitude in learning the rudiments of our language. We commend the enterprise to the sympathies and prayers of the Church.

The pastors of the Congregational, Presbyterian, Baptist, and Methodist Churches of this city, held their usual weekly meeting on Monday morning last in the Advocate office. These meetings are designed by the pastors for mutual exchange of thought, and for consultation and prayer. We should think, from the character of the meeting on Monday last, that these weekly re-unions are both pleasant and profitable.

FROM THE DALLES.—The *Mountaineer* has an account of a recent trip up Mt. Hood, by Messrs. J. J. Sprenger, correspondent of the Lancaster (Penn.) *Intelligencer*, George Liebe, James Parsee and Geo. Munger, with Billy Smith and an Indian as guides. They did not reach the summit, and Mr. Liebe expresses the opinion that nobody ever did. The party were absent from Friday afternoon, the 16th, till the following Wednesday.

The *Mountaineer* says: Our new Indian Agent for the Warm Springs Reservation, Captain Mitchell, arrived here on Tuesday's boat, and left on Wednesday morning for the Reserve.

The Methodist campmeeting will commence next Thursday on Fifteen Mile Creek in this county, and continue over the following Sunday.

The saw mill is still lying idle for want of water. We understand that the men engaged on the Hood River ditch have abandoned the work, and report that a portion of it must be flumed before it can be used.

VANCOUVER.—From the *Register* we clip the subjoined items: Mr. A. J. Ramington, who was accidentally shot ten days ago, on the Mill Plain, is now at the St. Joseph Hospital, having been removed there from his home on Tuesday last. On Tuesday he had a severe bleeding spell, but since then has improved considerably.

Capt. John Craig, Acting Quartermaster and Military Storekeeper at this post, who went East sometime since, on leave of absence for the benefit of his health, we learn was to leave Philadelphia on the 20th, on his way back.

J. T. Lovelace was arrested last week on a charge of complicity in the Coffey-Fletcher shooting affray. He waived an examination and was admitted to bail in the sum of $500 for his appearance at the next term of the District Court. Bondsman, Lewis Van Fleet.

FROM SALEM.—We learn from the *Unionist* that a Mr. Lawrence was thrown from a wagon at East Salem, a day or two since and had his left arm badly broken near the shoulder.

A gentleman of this city, who has just returned from a trip to Eastern Oregon, brought home with him the celebrated Indian pony Howlish-Wampum. This horse is celebrated for his speed and endurance, and was used by the Snake Indians for running down elk, a feat that was frequently accomplished with this horse over the hills in the eastern part of the State.

The measles are raging again in the neighborhood of Silverton. The contagion prevailed in the same neighborhood during the latter part of last winter.

PROLIFIC OATS.—We have several stalks of remarkably prolific oats, from the farm of a Mr. Haynes, who lives about five miles this side of Dayton, Yamhill county. The heads are from eighteen to twenty-one inches in length, and are heavily loaded with large, plump oats—should say not less than four hundred and fifty to five hundred grains to each head. We are not acquainted with the variety, but we should say, judging from these specimens, that it must be an excellent variety for farmers to try to.

THEATRICALS AT THE DALLES.—Mr. and Mrs. Bates gave a theatrical entertainment at the Dalles, last evening.

ANOTHER SEIZURE OF SMUGGLED GOODS.—A number of smuggled Chinese dressing cases were seized from the bark *Onward*, Tuesday evening, and yesterday the mate, Mr. Stinson, was arrested on the charge of smuggling, he being the person from whom a party in this city had purchased the goods. After a hearing before Commissioner Wilcox he was held to answer in the sum of $500. The value of the several goods seized is $[illegible] the duty chargeable being only about $[illegible].

DEATH AT SALEM.—The following [illegible] was received by the *Statesman* yesterday:

SALEM, July 23.—Charles Craft, a well-known man died this morning after a brief illness, aged 67 years.

Mr. Craft was an early settler at Salem, and was universally respected.

THE WEATHER.—Yesterday at 2 P. M. the thermometer stood at 84 degrees in the shade, a fall from yesterday at that hour of [illegible] degrees. Yesterday was [illegible] with an upward tendency, accommodating [illegible] to-day [illegible] degrees, [illegible] degrees less than that.

OREGON CITY STEAMERS.—The *Alert* was yesterday laid up at Oregon City for a new coat of paint, and the *Senator* took her place. Hereafter till further notice, there will be but one steamer per day—leaving Portland in the morning and returning in the afternoon.

CIRCUIT COURT.—The Circuit Court for this county will convene this morning, pursuant to adjournment last Tuesday. Mary Mack is indicted for grand larceny, jointly with Mary Collins, and P. Pierce, and convicted, will to-day receive sentence.

PORTLAND ACADEMY.—Examination begins on Monday next. The exercises of the graduating class will take place Tuesday evening. Rev. P. S. Knight will deliver the address. Musical and literary entertainment Wednesday evening.

THE CIRCUS.—The Great Eastern and Royal European Circus performed last night at the corner of Fourth and Pine streets, to a rather small house. There is to be a matinee at 2 o'clock to-day and an evening performance this evening.

FOR PUGET SOUND AND VICTORIA.—The steamship *Geo. S. Wright* sailed at 1 o'clock, P. M., and the *Gussie Telfair* at 6 P. M., for Puget Sound and Victoria—both vessels heavily loaded with produce and merchandise.

RELIGIOUS NOTICE.—Rev. P. C. Anderson will deliver a discourse at the Baptist Church on Sunday at 11 A. M. in answer to the question often asked "Where were you Baptized before Roger William?"

FIRE IN THE MOUNTAINS.—We learn from parties who have just crossed the mountains that there are extensive fires in the dead timber along the Santiam river and the adjacent mountains.

ROW AND AN ARREST.—There was an exciting row on Front Street last evening, the originator of which was arrested, after a deal of trouble and scrimmaging, and lodged in the jail.

EXTRAORDINARY SHOOTING.—During one day this week, Mr. H. W. Prettyman killed seventy grouse on the wing at seventy seven shots. It wasn't a very good day for grouse either.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

G. F. TRAIN *preaches* but does not always *practice*—for he patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on Doctors and Drug Stores, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr. Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our Druggists are the most, competent and our medicines and goods are fresh, pure and cheap.

[illegible] Plate is the battle-cry of the [illegible] of which [illegible] come back [illegible] have [illegible] plated three [illegible] forks or [illegible] Lasted.

This mode of Electro-Plating greatly surpasses the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A 1 XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, surprising, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

The scale is four miles to an inch, making the map sixty seven by fifty one inches. ENDORSEMENTS.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir:* Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value. Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness.

This map will fill a want that has long been felt, not only among the residents of the Territory, but others, who are desirous of obtaining information of this portion of the "Far West," and I trust that we shall soon see it in the hands of the people generally.

JAS. S. LAWSON,
Asst. U. S. C. S.

We endorse the above as the opinion of Jas. S. Lawson, Esq., and will add that Mr. Chas. A. White is a practical surveyor, and has had access to the township maps in the two Land Offices in this Territory, as also the Coast Survey charts, and we can vouch for his map of Washington Territory west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.

Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motives, and men insure them lives for security, and not for dividends. The best and most perpetual companies will then be those that promise only equity, and render all that they promise, and it will be the first security with the most upright and judicious insurers."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in insurance of the Premium paid is not secured to the Policy-holder, who takes a portion of the risk himself."

Notice to Pupils.

PROFESSOR GROB LEFT THE CITY FOR Vict

The Daily Oregonian.

SATURDAY MORNING, JULY 24, 1869.

on Rosecrans as a Democratic Candidate

A careful perusal of the proceedings of the no Democratic Convention, the same which ominated General Rosecrans for Governor not calculated to impress one particularly th the idea that the occasion was a remarkly harmonious one. George H Pendleton uld have had the nomination had he deed it, but a telegram from him was read in e Convention, positively forbidding the use his name. Rosecrans was then nominated a vote of 302 against 265 for all others. t this juncture a scene ensued which is thus scribed in the report of the Cincinnati Enirer (Democratic).

General Rosecrans having received a majority the votes cast, was duly declared the nomiee of the Convention amid immense applause. delegate moved that it be made unanimous. rles of "No, no." Billy Glass jumped to his et and vociferated, "Mr. President. Allow me congratulate you, on behalf of the workingmen Ohio, upon the nomination of a man who, in . Louis, put workingmen in prisons, and"—a lend caught William by the arm and jerked him to his seat, while a shower of hisses fell from ery quarter. General Dodge, of Cuyahoga unty, renewed the motion, making Gen. Rosans' nomination unanimous. The question was st and carried with cheer after cheer. "Put the gative," shouted a number of fiercely demon rative individuals in different parts of the hall. he negative was put, and some further vigorous oses" was the response. For ten minutes succeding, the confusion and tumult was greater an at any time during the Convention.

The nomination of General Rosecrans is a y bitterly bitter pill for the Vallandigham mocracy. The very thought that they are w called upon to support for Governor the eneral who sent Vallandigham ignominious beyond the lines as a traitor in 1863, awa- ens the most furious indignation and resentent. General Rosecrans was at Murfreesoro with his army. Vallandigham (who as then Democratic candidate for Gov- nor of Ohio) arrived as an exile at Rosecrans' camp and had quarters assigned him r the night. Here he was visited by osecrans himself, who entered into a long d violent discussion of political subjects ith him; during which the General took occasion to say in no very mild terms that the ery place for such friends of the rebels as the en Democratic candidate for Governor of hio was within the rebel lines and out of he loyal States. It is hardly probable that he bed-rock Democracy of Ohio will forgive he indignities which were thus offered to heir champion. The Cincinnati *Gazette* says the nominee will create wide disaffection in he Democratic ranks, and bring no gains rom the Republicans." In fact no Republican *could* vote for Rosecrans, standing on the latform which he occupies. The Convention declared in its first resolution that no ore interest should be paid on the public ebt until the bonds are subjected to taxation. his, of course, is repudiation direct, for all ntelligent people know that the States cannot tax national securities, and that it is sheer onsense to talk about the Government taxing its own bonds. It might as well tax its n offices, military posts and custom houses.

From on the Delaware.

The late Commodore Stockton, making a present to the New Jersey Legislature, March 8, 1859, said:

I am aware that I am about to bring upon delicate ground, and I hope that none will take offense at what I say; but I do it on the principle that the General Government shall contribute to the support of your resources as they have done for other States. I intend to say this of iron as well as of glass included in a tariff, if they will pass it. The question of a Protective Tariff has always a Democratic measure in New Jersey. The first resolution on this subject was introduced by Mr. Wilson. No one will doubt that he was a Democrat—a man of emi— he was the —— of the Democracy in New Jersey. But soon after that the party split. One side went off carrying the thunder with them, and it was the thunder they had, and they would not let the mat- ter be settled, and it became a party question. With an annual expenditure of $50,000,000 staring us in the face, is there anything more ridiculous than the vagaries of free trade? To raise the revenue it would require 33½ per cent. on all our imports; and; when we all know that this item has been raised, it is easy to talk about free trade."

What would the Commodore have said, indeed, the New York *Tribune*, had he lived to see the day when, with a national debt of $2,000,000,000, calling for an annual interest of 120,000,000, men talk of free trade as practicable and politic?

HONEST ELECTIONS.—They are likely to have honest elections in Philadelphia hereafter. The last Legislature enacted a special registry law for that city which it is believed will guard the elective franchise against such outrages as those of last year, by which Democratic plug-uglies from New York and Baltimore carried the city. A Democratic Judge, Hanswood, however declared the law unconstitutional, but the Supreme Court has reversed his decision and the law now stands on the statute book as a safeguard for honest men and a terror to Democratic "repeaters." The decision of the Supreme Court concludes with this energetic language:

It is true there is a kind of liberty this registry law will destroy. It is that licentiousness, that enlisteth freedom, which surrenders the polls to ruffians and vagabonds—outcasts from home and without industry; men who have no citizenship or stake in the Government—men who will commit perjury, violence and murder itself. To prevent this is the purpose of this law, and it should have the aid of fair men of all parties to give it a fair trial and secure its true end. It may have defects. Doubtless it has; and what system devised by the wit of man has not? But its defects, if any, should be remedied as they are disclosed by experience.

The law is not unconstitutional. It is a part of a political system of the State on which its offices and its very continuance depends.

ARE THEY READY FOR IT?—Democratic "statesmen" of the Pacific coast would do well to consider one fact. It was the abuse, the persecution and the wrongs inflicted on the negro which eventually made him a voter, that he would have some means of protection. Southern men and Democrats did this. They seem now by the same rule to be trying to make Chinese in this country voters. The New York *Tribune* quotes in full the ridiculous resolutions adopted in California by the Democratic State Convention, and comments as follows.

Up to this hour, we are unaware that a single Chinaman has applied for naturalization or attempted to vote in California, nor has a negro ever voted there. Our new treaty with China expressly stipulates that immigrants from either country shall not be entitled by it to naturalization in the other. The Chinese never offer nor seek to vote in California; but they are guilty of a crime of working, and even of working cheaper than some others will; hence the above are quoted Democratic platform) and kindred denunciations of malignity. If they cannot otherwise be stopped, it may be necessary to enfranchise the Chinese, so that they may protect their persons, property and reputations by their votes. Are Democrats prepared for such a result? They gave the ballot to the negro, and now they are seeking to give it to the Chinaman.

Punch's last dig at Mr. Sumner is a slightly altered bit of Shakspeare, thus:

Prince of Wales—Sir Sah, do I owe you a thousand pounds?

Jonathan Falstaff—A thousand pounds, Hal? A million! Thy love is worth four hundred million; thou owest me thy love.

BY ATLANTIC CABLE.

LONDON, July 22.—In the House of Lords to-night there was a full attendance of Peers. Many members of Commons were present. Consideration of the amendments to the Irish Church bill was resumed. Earl Granville opposed the debate stating that Her Majesty's ministers regarded the vote Tuesday night as one of a very grave character, but were unwilling to prevent the consideration of other amendments to the bill. We are anxious to conduct the discussion with conciliation on the proposed disestablishment, but he should not insist on a division of the House. As it was contrary to the feelings of the House, he would withdraw it.

Lord Cairnes said since the adjournment he had conference with Earl Granville. He thought the amendments remaining were new and capable of solution, and he was glad to find Earl Granville actuated by a similar spirit. Nothing could be more culpable on either side than to encourage protracted controversy on a measure of this kind where materials for solution are at hand. With that view and sentiment to everything that took place in the conference he accorded. He agreed that the question of date was of secondary importance. He was ready to accept the original date, and advised the Lords not to insist on their amendments in regard to curates, ecclesiastical residences or commutation of annuities. The question in respect to the disposition of the surplus funds might be left over, but power should be given to Parliament to apply a portion of the funds for the alleviation of unavoidable calamities. Lord Cairns concluded by admitting that he still had strong objections to the bill, but if it passed at all it was not for the interest of the country or church to prolong the struggle in minor details.

Marquis Salisbury, Earl Russel and other leading Peers accepted the compromise.

PARIS, July 23.—The Ministerial Council prepared and presented to the Emperor a "*Hanc senatus consultum*," giving effect to political reforms proposed in the Emperor's message.

The Corps Legislatif, since proroguing, held a meeting to consider what action should be taken under the circumstance.

M. Myers presented and explained a protest against the attitude of the Government toward the Chamber. He then proceeded to develop a programme of political reform, but the propositions made were rejected.

Ex-Senator Hendricks, of Indiana, is said to have started for the Pacific coast.

In a single day last week 817 tons of wheat left Stockton (Cal.) for San Francisco.

Orders have been received by one house in San Francisco from Chicago for six tons of grapes and pears, of the early crop.

Some steamers are a month overdue, and have not been heard from yet. The river is lower than ever before at this time of the year. Business is remarkably dull.

Says the Marysville (Cal.) *Appeal*: Mayor McCoppin has been in this State twelve years and held office ten years. He states this in his own card, and patronizingly asks, in his own language, if he is not an honest man, patriot, etc. Of course he is. The Northern Pacific Railroad

Our readers have been informed that an expedition was sent out recently from Lake Superior to inspect the route of the North Pacific railroad with a view of meeting the party which was recently in this city on their way up the Columbia. We find the following in the St. Paul *Press* of the 7th inst., relative to the movements of the expedition:

Our readers were advised several weeks ago that the Northern Pacific railroad Company was about to send an exploring expedition to inspect the route of that road from Lake Superior to the Missouri.

The expedition arrived in this city, at the Park Place, last evening from Winona, accompanied by William Windom, and consists of the following gentlemen: J. Gregory Smith, President of the Northern Pacific Railroad, Vermont; R. D. Rice, Director of the same, Maine; W. C. Smith, Member of Congress from Vermont; F. Woodbridge, ex Member of Congress from Vermont; Rev. Dr W. H. Lord, Vermont; C. C. Coffin ("Carleton"), of the Boston *Journal*, Boston; E F Johnson, Chief Engineer of the Northern Pacific, Connecticut; A B Bayless, New York, Holders, agent of Jay Cooke & Co., New York; James Simson, Chicago; James Colsborn, Maine; William Windom, Winona; John Douglas, Winona; Dr S A Thayer, Vermont.

The party had not last evening fully determined whether they would go through to Lake Superior before proceeding on their western journey, but had nearly concluded, on account chiefly of the bad state of the roads on the route, to reserve the Superior trip till their return from the West. We think we may say, indeed, that this course is decided on. The party will to-morrow go to Minneapolis, and on the next day, probably, to St. Cloud, whence they will proceed by the stage route to Abercrombie and Georgetown. The original programme was that at this point Holmes—the representative of Jay Cooke—and a few others, were to continue the exploration through to the Great Bend of the Missouri, while Governor Smith and the rest were to return to St. Paul; but last evening it was about determined that the whole party would proceed to the Missouri. Governor Smith, the President of the company, has been furnished by General Sherman with an order directing General Hancock, or the commandants of the military posts on his route, to provide the party with such an escort as they may require to insure their safe conduct across the plains. The necessary escort will probably be provided at Forts Abercrombie and Totten. George Brackett, of Minneapolis, is to provide the necessary transportation and supplies, and—himself to accompany the expedition. Pierre Bostineau, the traditional discoverer of every exploring expedition in this region since the days of Nicollet, is to act as the guide for this one also.

Take this method of notifying their friends the travelling public that they have disposed of their interest in the Western Hotel, and hereafter will continue to manage the COSMOPOLITAN, which is the future as in the past, will always maintain its reputation as the BEST and only FIRST CLASS Hotel in the city.
